Re: cargo operations in Constanta (CND)

Dear Sirs,

As Turkish Airlines, Inc., which is flying to the most countries worldwide, we herewith would like to write about Cargo operations at Constanta (CND).

As you may know, we are currently not able to carry any cargo to CND due to the fact that there is no such service and no available warehouse at this airport. Even though we are eager to start sending cargo shipments to CND, the current conditions don't allow us to do so. Therefore, please be informed that any attempt to provide the necessary investment and support cargo operations at CND will be highly appreciated by Turkish Airlines, Inc.

As a result of this, we support Aviation Services Bulgaria's plans to assist cargo operations at CND as a Cargo Handling Service Provider and are interested in this company starting operations for us at this airport.

Yours sincerely,

TURKISH AIRLINES INC.

Serdar Demir

VP Cargo Opr.

Zekeriya Savran

Cargo Handling Contracts Manager
