- Calitatea actului medical in acest asa-zis spital lipseste cu desavarsire. Mizeria care domneste pe sectii, gunoaietele, gandacii, mirosul de latrina te duc cu gandul mai degraba la un lagar de concentrare, nicidecum la un spital in adevaratul sens al cuvantului. Platesti - esti servit, nu platesti -esti lasat sa mori cu zile. 12 ore plus in triaj sub banuiala de atac cerebral si cred ca am spus tot. 12 ore in care amortesti in uitare pe o targa rece din anii '70, fara ca cineva sa se opreasca asu @2016-05-16
